

Dear Biotechnology Regulatory Services official,

I request a *Letter of No Permit Required (LONPR)* for importation of *Drosophila melanogaster* developed using genetic engineering that do not meet the criteria of "nonroutine" strains under federal regulations as described on the Bloomington Drosophila Stock Center website (https://bdsc.indiana.edu/information/permits/import_nonroutine.html). I agree that I will apply for import permits for any *Drosophila melanogaster* strain with these nonroutine genetic sequences and that I will not use the requested *LONPR* to import such strains.
